FOREWORD

This booklet is designed to assist commercial vehicle opertors to comply with the regulations governing the size and weight of vehicles on Ontario's highways.

The booklet consists of two parts. Part I is a simplification of the vehicle weight laws set out in the Ontario Highway Traffic Act. It describes through the use of examples, how maximum allowable axle weights and gross vehicle weights are determined. Part II of the booklet contains extracts from the Ontario Highway Traffic Act regarding vehicle and load dimensions.

NOTE: This publication has been prepared for purpose of convenience only, and for accurate reference recourse should be

had to the Highway Traffic Act.

The Highway Trafic Act may be purchased from the Ontario Government Book Store at 880 Bay Street, Toronto, Ontario, M7A 1N8

Telephone: 416/965-6015.

Digitized by the Internet Archive in 2023 with funding from University of Toronto

PART ONE

VEHICLE WEIGHT LIMITS

AXLE

Means an assembly of two or more wheels whose centres are in one transverse vertical plane and which are transmitting weight to the highway.

AXLE UNIT

Means any single axle, dual axle or triple axle.

AXLE UNIT WEIGHT

Means that part of the gross vehicle weight in kilograms transmitted to the highway by an axle unit.

AXLE GROUP WEIGHT

Means that part of the gross vehicle weight in kilograms transmitted to the highway by a two axle group, three axle group or four axle group.

FRONT AXLE

Means the front axle unit of a motor vehicle.

GROSS VEHICLE WEIGHT

Means the total weight in kilograms transmitted to the highway by a vehicle or combination of vehicles, and load.

WEIGHT RESTRICTION BY WIDTH OF TIRES

(a) Vehicles equipped with tires of less than 150 mm in width shall not be operated on a highway where the weight upon any millimetre in the width of the tire exceeds 9 kg.

or

(b) Vehicles equipped with tires of 150 mm or more in width shall not be operated on a highway where the weight upon any millimetre in the width exceeds 11 kg.

Example:

Tire Size 11.00 x 22

Tire Tread width = 11 inches
11 inches = 279.4 mm.

279.4 mm x 11 kg = 3 073.4 kg.

Maximum weight on tire = 3 073.4 kg.

AXLE UNITS

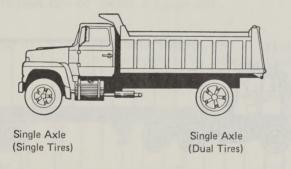

Axle Unit Types

- 1. Single Axle
- 2. Dual Axle
- 3. Triple Axle

1) Single Axle

Maximum single axle weight,

- a) for a single axle with single tires ...9 000 kg
- b) for a single axle with dual tires ...10 000 kg

NOTE:

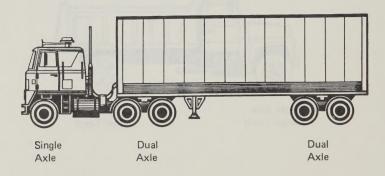

The maximum allowable axle unit weight for a single front axle shall not exceed 5 000 kg unless the driver is able to produce verification as to the manufacturer's gross weight rating for the single axle.

2) Dual Axle

- (i) any two consecutive axles whose centres are more than 1 metre apart, and that
- (ii) are articulated from a common attachment to the vehicle, or
- (iii) are designed to automatically
 equalize the load between the two
 axles.

Maximum dual axle weight shall not exceed that weight shown in Column Two opposite the corresponding axle spacing shown in Column One of Table 1 (page 22).

NOTE: The maximum weight for a dual axle equipped with single tires shall not exceed 18 000 kg.

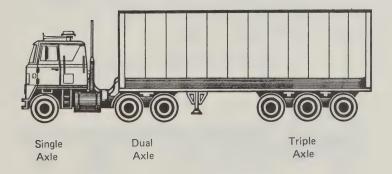

3) Triple Axle

- (i) any three consecutive axles that have their consecutive centres equally spaced, and
- (ii) have their consecutive centres more than 1 metre apart, and that
- (iii) are articulated from an attachment to the vehicle common to the consecutive axles, or
 - (iv) are designed to automatically equalize the load between the three axles under all conditions of loading.

Maximum triple axle weight shall not exceed that weight shown in Column Two opposite the corresponding axle spacing shown in Column One of Table 2 (page 22).

NOTE: The maximum weight for a triple axle equipped with single tires shall not exceed 27 000 kg.

AXLE GROUPS

Axle Group Types

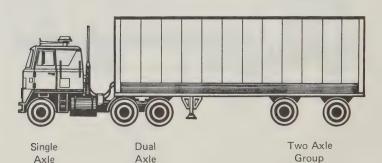

- 1. Two Axle Group
- 2. Three Axle Group
- 3. Four Axle Group

1) Two Axle Group

Means two consecutive single axles, not including the front axle of a motor vehicle,

- (i) that are entirely within either a motor vehicle or trailer or semitrailer,
- (ii) in which the spacings between the consecutive axles is less than 2 metres and
- (iii) which are not included in a three axle group or four axle group.

The maximum weight for a two axle group shall not exceed that weight shown in Column Two opposite the corresponding axle group spacing shown in Column One of Table 3 (page 23).

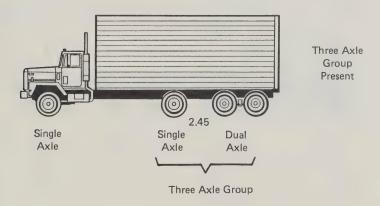

6

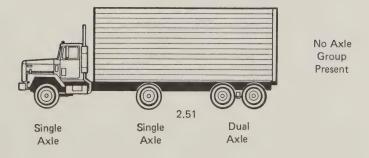

2) Three Axle Group

Means three consecutive axles, not including the front axle of a motor vehicle,

- (i) that do not form a triple axle
- (ii) that are entirely within either a motor vehicle or trailer or semitrailer,
- (iii) in which the spacings between the consecutive axles do not exceed 2.5 metres, and
 - (iv) which are not included in a four axle group.

The maximum weight for a three axle group shall not exceed that weight shown in Column Two opposite the corresponding axle group spacing shown in Column One of Table 4 (page 23).

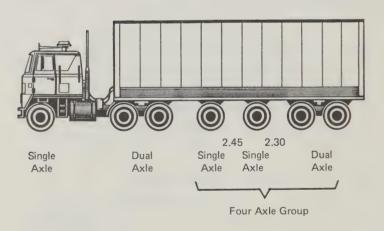

3) Four Axle Group

Means four consecutive axles, not including the front axle of a motor vehicle,

- (i) that are entirely within either a motor vehicle or trailer or semitrailer, and
- (ii) in which the spacings between the consecutive axles do not exceed 2.5 metres.

The maximum weight for a four axle group shall not exceed that weight shown in Column Two opposite the corresponding axle group spacing shown in Column One of Table 5 (page 24).

CALCULATION OF MAXIMUM ALLOWABLE

GROSS VEHICLE WEIGHTS

The following definitions (contained in Regulation 470) apply to the determination of allowable gross weights.

Base Length

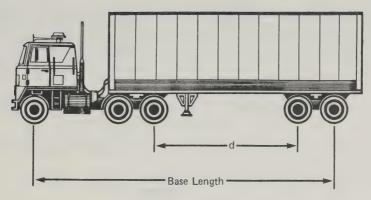

Means the distance measured between the centres of the first axle of the front axle of a vehicle or combination of vehicles and the last axle of a vehicle or combination of vehicles (See example A)

Front Axle Weight Means,

- (i) for a single front axle, that part of the gross vehicle weight transmitted to the highway by the front axle,
- (ii) for a dual front axle, one-half of that part of the gross vehicle weight transmitted to the highway by the front axle, and
- (iii) for a triple front axle, one-third of that part of the gross vehicle weight transmitted to the highway by the front axle.

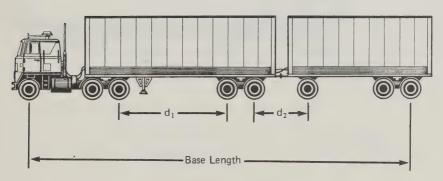

- (i) the distance measured between the centres of the last axle of the tractor and the first axle of the first trailer or semi-trailer or,
- (ii) the distance measured between the centres of the last axle of the first trailer or semitrailer and the first axle of the second trailer or semitrailer,

whichever is smaller (see example B).

"d" = Inter-Vehicle-Unit Distance

Example B.

 d_2 = Inter-Vehicle-Unit Distance (d_2 is smaller than d_1)

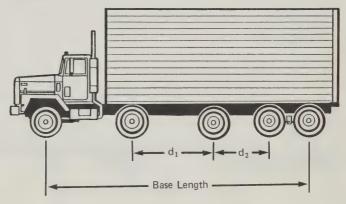

Intra-Vehicle Unit-Distance

For a five or six axle vehicle without trailer or semi-trailer means,

- (i) the distance measured between the centres of the second and the third axles from the front of the vehicle,
- (ii) the distance measured between the centres of the third and the fourth axles from the front of the vehicle,

whichever is greater (see Example C).

Example C.

d₁ = Intra-Vehicle-Unit Distance

(d₁ is larger than d₂)

Number of Axles

Means the total number of axles on a vehicle or combination of vehicles which are transmitting weight to the highway.

To calculate the maximum allowable gross vehicle weight, the following procedure should be followed:

- (a) Establish actual front axle weight. If the weight to be carried on front axle is unknown, a realistic figure should be assumed.
- (b) Count the total number of axles.
- (c) Establish the axle units, (single-dual-triple).
- (d) Measure all inter-axle spacings.
- (e) Establish all inter or intra-vehicleunit distances.

No inter or intra-vehicleunit distance for vehicles with less than 5 axles.

- (f) Determine the base length.
- (g) Establish the two, three or four axle groups, if any.

When the above data has been collected a maximum of three calculations should be made. The allowable gross weight for a vehicle or combination of vehicles will be the Least of the three calculations.

Calculation 1

Front axle weight plus the maximum allowable weight for all axle units from Tables 1 and 2.

Calculation 2

(Only if a two, three, or four axle group is present).

Front axle weight plus the maximum allowable weights for any two, three, or four axle group plus the maximum allowable weight for any axle unit or units which are not part of any axle group.

Calculation 3

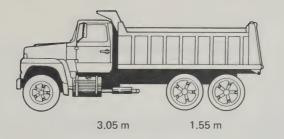

That weight prescribed in Regulation 470 (Tables 6-34) having consideration to:

- (a) Number of axles
- (b) Inter or intra-vehicle-unit distance
- (c) Front axle weight
- (d) Base Length

NOTE:

An axle unit, within an axle group, may weigh that weight allowed by the axle unit Tables (1 + 2) if the allowable axle group weight is not exceeded.

Example 1

Base Length = 4.60 m (3.05 + 1.55) Inter-Vehicle-Unit Distance = Not applicable Acutal (or estimated)

Front axle weight = 7 500 kg

Calculation 1

7 500 + 17 900 = 25 400 kg*

Calculation 2

Not applicable, no axle groups present

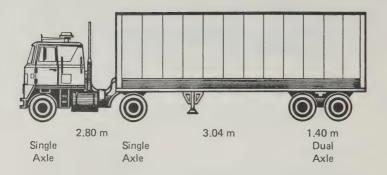

Calculation 3

Table 6 = $26 \ 300 \ \text{kg}$

*Maximum allowable gross

vehicle weight is the least

of the three calculations = 25 400 kg

Base Length = 7.24 mInter-Vehicle-Unit Distance = 3.04 mActual (or estimated) front axle weight = 4.650 kg

Calculation 1

4 650 + 10 000 + 17 500 = 32 150 kg*

Calculation 2

Not applicable, no axle groups present

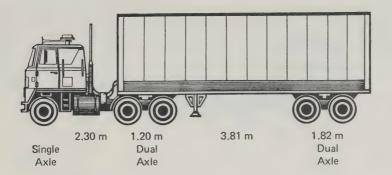

Calculation 3

Table 7 = $33\ 000\ kg$

*Maximum allowable gross

vehicle weight is the least

of the three calculations = 32 150 kg

Base Length = 9.13 m
Inter-Vehicle-Unit Distance = 3.81 m
Actual (or estimated) front
axle weight = 5 200 kg

Calculation 1

5 200 + 16 800 + 19 100 = 41 100 kg

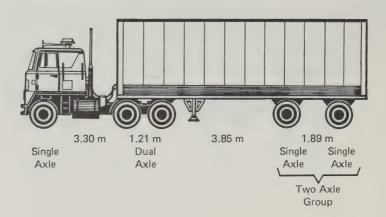

Calculation 2

Not applicable, no axle groups present

Calculation 3

Table 13 = $39 \ 400 \ \text{kg}^*$

*Maximum allowable gross
weight is the least of
the three calculations = 39 400 kg

Base Length	=	10.25	m
Inter-Vehicle-Unit Distance	=	3.85	m
Actual (or estimated)			
front axle weight	=	4 980	kg

Calculation 1

4 980 + 16 800 + 10 000 + 10 000 = 41 780

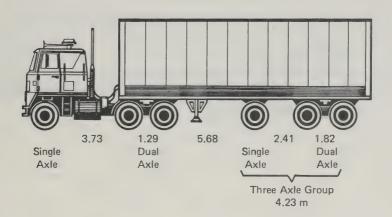

Calculation 2

 $4\ 980 + 16\ 800 + 18\ 600 = 40\ 380\ kg*$

Calculation 3

Table 13 = 40 700 kg

*Maximum allowable gross
vehicle weight is the least
of the three calculations = 40 380 kg

Base Length	=	14	1.93	m
Inter-Vehicle-Unit Distance	=	5	5.68	m
Actual (or estimated)				
front axle weight	=	5	370	kg

Calculation 1

5 370 + 16 800 + 10 000 + 19 100 = 51 270 kg

Calculation 2

 $5\ 370\ +\ 16\ 800\ +\ 26\ 000\ =\ 48\ 170\ kg*$

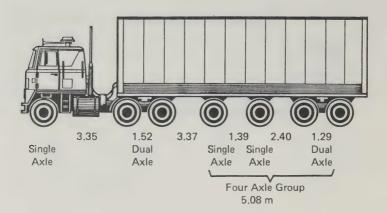

Calculation 3

Table 20 = 52 500 kg

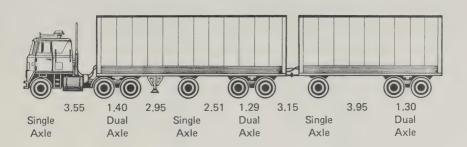

*Maximum allowable gross

vehicle weight is the least

of the three calculations = 48 170 kg

Base Length Inter-Vehicle-Unit Distance Actual (or estimated front axle weight	= 13.32 m = 3.37 m = 5 120 kg
Calculation 1	
5 120 + 17 900 + 10 000 + 10 000 + 16 800	= 59 820 kg
Calculation 2	
5 120 + 17 900 + 28 900	= 51 920 kg*
Calculation 3	
Table 26	= 52 000 kg
*The maximum allowable gross vehicle weight is the least of the three calculations	= <u>51 920 kg</u>

Base Length = 20.10 m Inter-Vehicle-Unit Distance = 2.95 m Actual (or estimated) front axle weight = 4 760 kg

Calculation 1

4 760 + 17 500 + 10 000 + 16 800 + 10 000 + 17 200 = 76 260 kg

Calculation 2

Not applicable, no axle groups present

Calculation 3

Table 31 = $58 \ 800 \ \text{kg}^*$

*Maximum allowable gross

vehicle weight is the least

of the three calculations = 58 800 kg

PART TWO

VEHICLE & LOAD DIMENSIONS

ONTARIO HIGHWAY TRAFFIC ACT

PART VI

LOAD AND DIMENSIONS

91. In this Part,

- (a) "over-dimensional farm vehicle" means a farm tractor, self-propelled implement of husbandry, implement of husbandry, or any combination of them, having a weight, width, length or height in excess of the limits provided in this Part or Part VII;
- (b) "semi-trailer" means a trailer designed to be operated with the forward part of its body or chassis resting upon the body or chassis of a towing vehicle.

92.———(1) Subject to section 93, no vehicle including load or contents shall have a greater width than 2.6 metres while on a highway except,

- (a) traction engines, which may have a total width not exceeding 2.8 metres; or
- (b) motor vehicles and road-building machines, operated by or on behalf of a municipality or other authority having jurisdiction and control of a highway, where such vehicles are engaged in road maintenance, including the removal of snow from a highway.

- (2) Subject to section 93, no load on a vehicle shall have a greater width than 2.6 metres while on a highway except,
 - (a) loads of raw forest products which shall not exceed a total width of 2.7 metres at point of origin and which shall not exceed a total width of 2.8 metres at any time during transit; or

(b) loads of loose fodder.

- (3) Where a commercial motor vehicle is equipped with one or more rear vision mirrors that extend in whole or in part beyond either side of the vehicle, or one or more lamps, required by this Act, that extend in whole or in part beyond either side of the vehicle, the amount of such extension shall not be included in determining the maximum width of the vehicle under subsection (1).
- (4) Where a bus is equipped with rear vision mirrors, side marker lamps, side marker reflectors, side mounted turn indicators or rubber fenders around the outer edges of its wheel housings, any of which extend in whole or in part beyond either side of the vehicle, the amount of such extension shall not be included in determining the maximum width of the vehicle under subsection (1).
- (5) Where a commercial motor vehicle or trailer is equipped with a load covering mechanism, extensions in the width of such vehicle caused by the mechanism shall not be included in determining the width of the vehicle under subsection (1) where the mechanism does not extend the width of the vehicle on either side by more than 102 millimetres.

- (6) Subject to section 93, no vehicle, other than a fire apparatus, a semi-trailer or a bus, including load shall exceed the length of 12.5 metres while on a highway.
- (6a) No combination of vehicles, including load, coupled together shall exceed the total length of twenty-three metres while on a highway.
- (6b) No combination of vehicles shall be operated on a highway where the distance from the back of the driver's compartment of the tractor to the rearmost part of the combination of vehicles exceeds nineteen metres, unless the distance from the centre of the kingpin of the foremost trailer to the rearmost part of the combination of vehicles is 16.75 metres or less.
- (6c) For the purposes of subsection (6b), a sleeping compartment shall be considered as part of the driver's compartment.
- (7) Subject to section 93, no semitrailer, other than a semi-trailer designed for the carriage of vehicles, shall exceed the length of 14.65 metres while on a highway and any extension in the length of a semi-trailer caused by auxiliary equipment or machinery that is not designed for the transportation of goods shall not be included in determining the length thereof.
- (8) No bus, other than an articulated bus, shall exceed the length of 12.5 metres while on a highway, but an increase in the length of a bus caused by the addition of a liquid filled or other energy-absorbing bumper shall not be included in determining the length of the bus.

- (9) The council of a city may by by-law prohibit the operation of a combination of vehicles having a total length, including load, in excess of 15.25 metres while on a highway or a portion thereof under its jurisdiction designated in the by-law.
- (9a) Where a vehicle is equipped with one or more mirrors that extend in whole or in part beyond the front of the vehicle, the amount of the extension shall not be included in determining the length of the vehicle under subsection (6), (8) or (9).
- (10) Subject to section 93, no vehicle including load, shall have a greater height than 4.15 metres while on a highway.
- (11) Every person who contravenes any of the provisions of this section is guilty of an offence and on conviction is liable to a fine of not less than \$100 and not more than \$500 and, in addition, the permit issued for the vehicle under section 7 may be suspended for not more than six months.
- 93.-(1) The municipal corporation or other authority having jurisdiction over the highway may, upon application in writing, grant a permit for the moving of heavy vehicles, loads, objects or structures in excess of the dimensional limits set out in section 92 or the weight limits set out in Part VII.
- (2) The permit referred to in subsection (1) may be general, or may limit the time and the particular highway that may be used, and may contain conditions relating to the protection of persons and property from injury or damage and the municipal corporation or other authority may require a bond or other security sufficient to cover the cost of repairing any possible damage to the highway.

- (3) The council of any municipality may, by by-law provide that a permit referred to in subsection (1) may be issued by an officer of the corporation named therein.
- (4) In the case of a vehicle for which a permit is required under this section in order to pass over a highway or highways under the jurisdiction of two or more municipalities or other authorities, the permit so to do may be issued by the Ministry, which permit is in lieu of the several permits to be otherwise obtained from the municipal corporations or other authorities, and the permit may limit the time and the particular highway or highways that may be used, and may contain any special conditions or provisions that may be considered necessary to protect the highways from damage, and the Ministry may require a bond or other security sufficient to cover the cost of repairing possible damage to the highway.
- (5) The owner, operator or mover of a heavy vehicle, load, object or structure in respect of which a permit is granted under this section is nevertheless responsible for all damages that may be caused to the highway by reason of the driving, operating or moving of any such heavy vehicle, load, object or structure.
- (6) It is a condition of every permit issued under this section that the original of the permit be carried in the vehicle for which the permit was issued and be produced when demanded by a police officer or an officer appointed for carrying out the provisions of this Act.

- (7) Every person who operates or permits the operation of a vehicle or combination of vehicles contrary to any of the conditions of the permit is guilty of an offence and on conviction is liable to a fine of not less than \$100 and not more than \$500 and, in addition, if the condition contravened is in respect of any weight allowed under the permit, a fine shall be imposed as if the person had not been issued a permit under this section and had been convicted of an offence under section 99, 100 or 101 in respect of any gross vehicle weight, axle unit weight or axle group weight in excess of the maximum allowable weights permitted under this Act or the regulations.
- 94.- (1) Every vehicle carrying a load which overhangs the rear of the vehicle to the extent of 1.5 metres or more while on a highway shall display upon such overhanging load at the extreme rear end thereof at any time from one-half hour before sunset to one-half hour after sunrise, or at any other time when there is insufficient light or unfavourable atmospheric conditions, a red light, and at all other times a red flag or a red marker sufficient to indicate the projection of the load.
- (2) No person shall operate or permit to be operated upon a highway any motor vehicle or trailer unless the load that the vehicle or trailer is carrying is firmly bound, sufficiently covered, or otherwise secured or loaded, in such manner that no portion of the load may become dislodged or fall from the motor vehicle or trailer.

- (3) The Lieutenant Governor in Council may make regulations.
 - (a) prescribing the manner of loading, and of covering and securing loads on vehicles or classes of vehicles operated on highways or classes of highways;
 - (b) designating the vehicles or classes of vehicles and the highways or classes of highways to which any loading, covering or securing provisions are to apply; and
 - (c) prescribing classes of vehicles, highways and loads for the purposes of clauses (a) and (b).
- (4) Every person who contravenes any of the provisions of this section or of a regulation made under subsection (3) is guilty of an offence and on conviction is liable to a fine of not less than \$50 and not more than \$100 and, in addition, his driver's licence issued under section 18 and his permit issued under section 7 may be suspended for a period of not more than sixty days.
- 95.- (1) The Lieutenant Governor in Council may make regulations,
 - (a) classifying and defining explosives and dangerous materials;
 - (b) regulating or prohibiting the transportation of explosives and dangerous materials or any class thereof by a vehicle on a highway;
 - (c) regulating the preparation and packaging of explosives and dangerous materials or any class thereof to be transported by a vehicle on a highway; and

- (d) requiring the labelling of packages and containers of explosives and dangerous materials or any class thereof and prescribing the labels to be attached to such packages and containers.
- (2) Any regulation made under subsection (1) may adopt by reference, in whole or in part, with such changes as the Lieutenant Governor in Council considers necessary any code or standard, or any regulation made by the Government of Canada, and may require compliance with any code, standard or regulation that is so adopted.
- (3) Every person who contravenes any of the provisions of a regulation made under this section is guilty of an offence and on conviction is liable to a fine of not less than \$100 and not more than \$500 or to imprisonment for a term of not more than three months, or to both.
- 96.-(1) The provisions of this Part, other than regulations made under this section, do not apply to over-dimensional farm vehicles.
- (2) The Lieutenant Governor in Council may make regulations,
 - (a) regulating or prohibiting the movement of over-dimensional farm vehicles or classes thereof on a highway or on classes of highways,
 - (b) requiring that escort vehicles or classes of escort vehicles accompany over-dimensional farm vehicles or classes thereof on a highway or classes of highways;
 - (c) prescribing the types, specifications and locations of markings, signs and lights that shall be carried by over-dimensional farm vehicles and escort vehicles or classes of either or both of them on a highway or classes of highways;

(d) prescribing conditions for the movement of over-dimensional farm vehicles on a highway or classes of highways relating to the protection of persons and property from injury or damage.
